

Nature of Science
Choose Your Own Vocabulary Practice

Directions:

- Choose 15 words to define and make a vocabulary card for each.
- Your vocabulary list should have at least two words from each section.
- The words tend to get more difficult toward the bottom of each section.

⚠ We will use ALL the words on this list!

Section 1	Section 2	Section 3	Section 4	Section 5
science scientific research biologist chemist physicist geologist astronomer astrologer pseudoscience	data observation inference qualitative quantitative analysis objective subjective peer-reviewed methodology	testable question results confirm reject hypothesis experiment procedure conclusion scientific law scientific theory	gram liter meter kelvin ruler meter stick scale/balance measuring cup beaker graduated cylinder	The Scientific Method conduct (experiment) analyze predict variable independent variable dependent variable controlled variable control group fair test
