

Name: _____

Class: _____

Testable Questions

Part 1 Instructions: for each example, determine if the question is testable or non-testable. If it is not testable, rewrite the question to be testable.

1. Does running for an hour cause your heartbeat to increase?

2. Is running barefoot bad?

3. Does changing the temperature of water affect how quickly sugar will dissolve?

4. Does the color of paper affect how well students score on a math test?

5. How do I get better at basketball?

6. How do I feel less tired during the day?

7. What is the effect of hours of sunlight on plant growth?

8. Does age have an effect on favorite TV show?

9. Are cell phones bad?

10. What is the effect of having social media on happiness?

Part 2 Instructions: write 5 of your own questions that are non-testable, and 5 questions that are testable
